AGREEMENT

The undersigned Owner (hereinafter called the "Customer") hereby makes application for and agrees to take from the Ardmore Water System (AWS) the service or services covered by this application at the address given above until Customer notifies AWS in writing that Customer wishes to have the service or services turned off, and agrees to be responsible for the payment of all bills for utility services at the above address. Customer understands prompt payment for service is required in order to avoid termination of services at the above location. Customer acknowledges that each bill received is a stated account and that the amount due on a bill is deemed correct unless Customer contests the amount due within thirty days of receipt. Customer understands that the connection/service fee is nonrefundable. If customer has service discontinued it may be restored within a (3) month period at the current transfer fee rate. If, after the (3) month period service is required a current meter fee rate is charged. As permitted by applicable law, AWS reserves the right to transfer a Customer's prior delinquent account balance to this new account upon verification of the identity of the Customer.

Customer agrees to permit the authorized agents of AWS free access to the premises of the Customer for the purpose of inspection prior to the connection(s) of service of a type or character to determine that all service types comply with all applicable local, State, and Federal Building Codes. Any new construction or renovation requiring water or sewer must be installed and inspected by a certified operator of the AWS. AWS will not be liable for any work done by owner.

Customer agrees to permit the authorized agents of AWS free access to premises for the purpose of connecting, disconnecting, inspecting, testing, reading meters, repairing or removing any property of AWS, and agrees not to permit anyone, including the Customer, to deface, damage, or otherwise tamper with the property of AWS. Customer shall be responsible for the costs of repair due to any damage to any AWS property attributable to customer's actions or neglect.

AWS makes reasonable provisions to insure satisfactory and continuous service, but it does not guarantee continuous service, and will not be liable for loss or damage caused by accidents or conditions which it could not have foreseen or over which it has no control.

I, the undersigned, hereby certify that I do not owe The Ardmore Water and Sewer System for prior service and further certify that this is my application for service and is not submitted with or on behalf of another person who has had water terminated by AWS for failure to pay a water bill. I agree that in the event any statements herein are untrue that water service may be terminated by AWS and I understand that I will not be refunded any of the service fee that I have paid and will be held responsible for any water used.
